## PRAISE FOR THE SERIES:

### Summer Reading Challenge selection 2018, 2019 & 2020

"Packed with scientific facts, but perhaps more impressive are the examples of some key scientific methods and capabilities (close observation, investigating and problem solving, being systematic and discriminating) and scientific attitudes (curiosity, persistence, exploration, sustained thinking). Working together, the twins devise some ingenious and messy experiments."

– The School Librarian

"The perfect book to bridge from picture books. There's plenty of fun illustrations between the pages and a simple fun story. What's great though is how likeable the twins are – there's no attempt to make them outrageously wacky – and how they are so interested in science and nature."

– TOPPSTA
